Step back in silence  
Do you like this Freak Show?  
For you is madness  
I'm just depressed

And I say...  
That's better run away  
For you man...  
It's better run away

Contorted visions  
Are moving like a mannequin  
Do you like the crazies?  
Or prefer stupeficients?

And I say...  
That's better run away  
For you man...  
It's better run away

Killing the reason  
On the edge of the self-destruction  
Have I lost my mind?  
I need to kill time

And I say...  
That's better run away  
For you man...  
It's better run away

And I say...  
For you man...  
Yeah, I say...  
That's better run away
