Yeah
Check it out all you need to do is trust me
Everythang gonna be aright
I know u love me so u can trust me
Don't listen to your friends spying
The ones just tryin to bust me not to say bust like im a
bad guy
Never given a reason to hurt ya
No need to ask why
And u know that I wont desert ya
Never hurt ya 'cause that's not in my blood
Me hurtin u is like a sin
And I got much love
Do u really think that I would do u like that
After all we been together
Me n your love that's a fact
I know u aint trippin about last night
U don't believe me
Im not gonna say anotha word 'cause j n mackady

Its 2 oclock in the morning
And im tryin to be descret
Pickin up the telephone because we have to speak
And even though u made it clear that never in your life
Did u wanna have association with a low life
But im sorry what else can I say
U pushed me away and every man needs affection
But hey when u lose the only thing that matters in your
life
Its hard to breathe hard to think and hard to hold the
tears inside
So have compassion give us another try
Ill be by your side till I die

Lemme take you home everybody gone
Me n you alone baby don't worry knock off the phone
Makin your body moan makin sure im hittin every spot
Makin u hot im hittin the preasure point with all I got
Sweatin makin sure that bookie lows not lettin
Your fantasy weaken u can call me the human weapon
So baby don't be scared just let me go a little deeper

Let me explore that hot love and makin u much weaker
If u wanna do whateva u want then baby im your man
Got the latte n the kids so keep it if u can
'cause this is all night
1 or 2 minutes of passion
Hours n hours of hot lovin to have u passin out
Makin u scream n shout takin another route
Believe im gonna give u the definition of what loves
about

Mama used to tell me they're be gurls like this
Being a playa neva thought I would feel like this
'cause aint nothin like the feelin that you give when the
lights is dim
Satin bed material all I wanna get in like a rush takin
over
Maybe this can be addicting and I can be your
puppetier
For the fantasy u kinky some of sexaholic
Got my fiendin 4 the flesh
Now it really dosnt matter all the chatter going round
When it comes to satisfaction can't be wastin time with
clowns
Cause it's all about the choices
Sexy voices on the lobes of the ears of the hunnies so
real
So tell me how u feel

And baby u know that were gonna keep it on the real
So what u wanna do now
We know abotu each others past
Seein each other butt naked and even t0ok a bath with
each other
U say I love u down like no other
Made it clear as a picture when we was sweatin up
under the covers
Now look me n my eye and remember
That the only one that gave u all the lovin that u needed
was this guy
So when u need that passion that your body lackin
Make sure u call on bookie low the one that's packin

(girl moaning and groaning)
