### "What Kind Of Man"

Visit "[What Kind Of Man](#)" on [MotoLyrics.com](http://MotoLyrics.com)

What kind of man would do the things I do  
What kind of Man would give his life for u  
What kind of man would change the world  
What kind of man u tell me gurl  
Come on come on

What kind of man  
Can do the things I do for u  
My love  
X2

I never wanted it to be like this  
I wanted to be the one to treat you like a queen always  
Be by your side and take u places that you never been  
Trips around the world giving you everything  
But I guess you had to do me wrong you had to run  
along  
Found somebody else and you broke my heart  
What am I to do gurl now that u gone in my life  
I don't know how to live without u by myside  
Damn what did I do to make you go  
What can I do to make you stay  
What did I do to make you leave  
What can I do to make you stay with me

Chorus

What kind of man would do the things I do  
Treat you right was there and took care of u  
You pretend that our world was the perfect thing  
To find out that to u I was just a fling  
I don't love you enough to hate you  
And that's okay  
U want to run around the streets thinkin u could play  
Thought you were the one  
Tell me what I did wrong  
Right here with me is where you belong  
What did I do to make you go  
What can I do to make you stay  
What did I do to make you leave  
What can I do to make you stay with me

## Chorus

How many times have I heard them same lies  
And how many times have I lo0ked into your lieing eyes  
Seen no tru colors and when I had you I treated u like  
no other  
My heart my life and all my respect is what u hold and  
had in the palm of your  
Hand  
From hugs and kisses to u dissing and having fights in  
the middle of the night  
You talking ishit from I love you to no respect  
I should of seen it from the junk  
But the game had no name only me to blame  
And now it's got me thinkin all gurl are the same  
Now the dog show the kittie how to play  
Asking for the world at my hearts expense  
You left me

## Chorus

Used to be my dream come tru  
In this love affair  
One that I would hold now baby your not there I wish  
that I could see
