Come closer, we're alone,  
And it chills me to the bone,  
I wish that I'd been mad,  
To care, and carry you, carry you home.

You're not the only one,  
Isolated and undone,  
So many miles to go,  
Well I know, I know.

I know you think that you've been down,  
You never know when things will turn around, turn  
around,  
I know you think that you've been down,  
You never know when things will turn around, turn  
around,

Come closer, we're alone,  
And I know,  
You feel so helpless,  
I know, I know.

I know you think that you've been down,  
You never know when things will turn around, turn  
around,  
I know you think that you've been down,  
You never know when things will turn around, turn  
around,  
I know you think that you've been down,  
You never know when things will turn around, turn  
around,

December,  
I remember,  
We smiled for awhile.

In December,  
Together we'll climb,  
And I'll carry you home.
