Step back in silence
Do you like this Freak Show?
For you is madness
I'm just depressed

And I say...
That's better run away
For you man...
It's better run away

Contorted visions
Are moving like a mannequin
Do you like the crazies?
Or prefer stupefacients?

And I say...
That's better run away
For you man...
It's better run away

Killing the reason
On the edge of the self-destruction
Have I lost my mind?
I need to kill time

And I say...
That's better run away
For you man...
It's better run away

And I say...
For you man...
Yeah, I say...
That's better run away
