Can you hear me screaming in the night?
I'm so angry with the other guys
They're becoming what I despise
They've believed to all the lies

That's my generation, that's my generation
My generation, my generation
My generation sucks!
And I know that it sucks...

Can you hear me screaming in the night?
I'm so angry with the other guys
They're becoming what I despise
They've believed to all the lies

That's my generation, that's my generation
My generation, my generation
My generation sucks!
And I know that it sucks...
