My Dream Sonata

My dream sonata is the music I hear

Each night when all the world is deep in slumber,

And in my dreams you suddenly appear

While the music's playing I hear you say,

“I love you, I love you.”

\*\*My dream sonata has the beauty of prayer,

A prayer my lonely heart has set to music,

That when I wake, my darling, you'll be there.

But when I awaken, you're gone, it seems.

Like my sonata, you all only in my dreams.
