I can't stop you
So go your way
If that makes you happy
I've nothing to say

But nothing goes up
No, nothing goes up
Without coming down

I'm hurting now
Cause you're leaving
But I know that someday
I won't be grieving

Cause nothing goes up
No, nothing goes up
Without coming down

So, darling, please think
Before you leap
Remember what you sow
So shall you reap

Please be careful
In all you do
What's happening to me
Could happen to you

Cause nothing goes up
No, nothing goes up
Without coming right on down
