

Nat King Cole "Slow Down"

Visit "[Slow Down](#)" on MotoLyrics.com

Say so stop horses
You've been traveling too fast
I warn you, yes, warn you
Say how long will it last

You'll better slow it down
Before there is a showdown
Or else our love is gonna breakdown
If you don't slow down

Baby, I've told you
I do not wanna scold you
These arms of mine just wanna hold you
Until you slow down

You see your hands and face
Then you forget your place here beside me
While all I do is pray that there will come a day
When you're free

Free, free to love me
No other love's above me
Sweetheart, you know that you can have me
If you slow down

You see your hands and face
You forget your place here beside me
While all I do is pray there will come a day
When you're free

Free, free to love me
No other love's above me
Baby, you know that you can have me
If you please slow down, down, down, down, well
