You'll never know just how much I miss you
You'll never know just how much I care

And if I tried, I still couldn't hide my love for you
You oughta know for haven't I told you so
A million a more times, you went away
And my heart went with you

I speak your name in my every prayer
If there is some other way to prove that I love you
I swear I don't know how
You'll never know if you don't know now

You said goodbye now
Stars in sky refuse to shine
Take it from me, it's no fun to be alone
With moonlight and memories

I speak your name in my every prayer
If there is some other way to prove that I love you
I swear I don't know how
You'll never know if you don't know now
You'll never know if you don't know now
