I was shook up, I was dazed  
I was hooked in a minute, I was so unashamed  
I was guilty, I was sin  
Baby look at the mess that you got me in

You light the flame, unlock the chain  
I'm past the pain  
You're making me lose it  
You've got a way to make me stay  
I can't explain  
How you're making me do it

I already know where I'm going  
The moment my feet hit the floor  
Cos you really know how to get me baby  
And keep me coming back for more  
You keep me coming back for more

No way over, now way around  
Baby now that I'm in it I don't wanne get out  
There's no night, there's no day  
All the will in the world wouldn't pull me away

#### **CHORUS**

Just when I thought I was leaving  
Before I can reach for the door  
You know how to mpush and pull me baby  
And keep me coming back for more  
You keep me comming back for more

Keep me coming back, keep me coming back  
Keep me coming back for more  
Keep me coming back, keep me coming back  
Keep me coming back for more

#### **CHORUS**

Just when I thought I was leaving  
Before I can reach for the door  
You know how to push and pull me baby

And keep me coming back for more  
You keep me coming back for more
