written and composed by Roland Spremberg Rike
Boomgaarden
Jan van Duikeren

I would rather let us go slow
'Cause I've been losing my control
I've been looking what's been out there
Baby, coming back for more

hap harded happy is not my beat
Hap harded happy isn't what we need
The truth is the mystery of life
(We long to find)
The truth in lovin' will survive

Now I can't take this

Feeling
It's a matter of time
Believing
What's on my mind

Feeling
Go make it happen
Look through my eyes
Right into my life

Don't you tell me what is right and wrong
'Cause I've been banging my own drum
There's nothing you can say or do for me
Baby, I'm begging you to stop

Hap harded happy is not my style
hap harded happy is gonna make me cry
The truth is the mystery of life
(We long to find)
The truth in lovin' will survive

Now I can't take this

Feeling

It's a matter of time
Believing
What's on my mind

Feeling
Go make it happen
Look through my eyes
Right into my life

Feeling
It's a matter of time
Believing
What's on my mind

Feeling
Go make it happen
Look through my eyes
Right into my life

(intermission)

Now I can't take this

Feeling
It's a matter of time
Believing
What's on my mind

Feeling
Go make it happen
Look through my eyes
Right into my life

Feeling
It's a matter of time
Believing
What's on my mind

Feeling
Go make it happen
Look through my eyes
Right into my life
