Glamorous, glamorous

Reminiscing back to days long gone
Seems like a dream but the memory's still strong
Told the road to my dreams would be too hard
The height that I was reaching for would be too far
No one could see what I saw
But I knew just what I was headed for
So patiently I took my time
But I always knew that I would get mine

You know you gotta gotta push push push push on
If you wanna get it gotta push push on
Woowoooh number 1 in the game
Woowoooh private planes, everything
Gotta gotta push push push push on
If you wanna get it gotta push push on
Woowoooh number 1 in the game
Woowoooh private planes, everything

Yes yes we're glamorous
Uh huh
First class, rich and famous
Now it's so luxurious
Uh huh
Know who I be now I'm living like a movie
Yes yes we're glamorous
Uh huh
First class, rich and famous
Now it's so luxurious
Uh huh
Check on me see me living like a movie

Yes yes look what we've started
Best dressed tearing up the red carpet
Pushed on through the fire but I keep it cool
So many jewels don't know what to do
All around the world flying mile high
Offers coming left and right and it's the life
So patiently I take my time
'Cause I always know that I'm gone get mine

You know you gotta gotta push push push push on
If you wanna get it gotta push push on
Woowoooh number 1 in the game
Woowoooh private planes, everything
Gotta gotta push push push push on
If you wanna get it gotta push push on
Woowoooh number 1 in the game
Woowoooh private planes, everything

Yes yes we're glamorous
Uh huh
First class, rich and famous
Now it's so luxurious
Uh huh
Know who I be now I'm living like a movie
Yes yes we're glamorous
Uh huh
First class, rich and famous
Now it's so luxurious
Uh huh
Check on me see me living like a movie

Just like a movie
Glamorous in every scene, uh huh
Now I got the finest things
Just like a movie
Glamorous in every scene, uh huh
Now I got the finest things

Yes yes we're glamorous (oh yeah)
