Now I've come back
To do it again
This is who I wanna be
You better believe it

With a clean slate
Living the new
There ain't nothing wrong with me
As far as i see it

I was born
To do this thing
I was born
To do this thing
Don't know what the future brings

The sun is shining inside my head
I found the strength to believe
Music showed me the way to be
And now
I fall on my feet

Got a new band
Slamming tunes
Turn me loose i'll play this game
I'm gonna prove it
Music's hard wired in the brain
All my life I've felt this way
But I never knew it

I was born
To do this thing
I was born
To do this thing
Who knows what the future brings

The sun is shining inside my head
I found the strength to believe
Music showed me the way to be
And now
I fall on my feet

I realize I'm a creature of habit
I know it's there gonna reach out and grab it
Deep down inside it's the path that I follow
I'm lighting the way for the dream of tomorrow

Born
To do this thing
I was born
To do this thing
Don't know what the future brings

The sun is shining inside my head
I found the strenght to believe
Music showed me the way to be
And now
I fall on my feet

Music showed me to be
And now
I fall on my feet

Said, said I all on my feet baby
I said I fall on my feet now
I said I fall on my feet now
I fall on my feet baby
Come on
Ooh
I fall on my feet
