Silver rays are touching me
Been a long time since the Earth moved under my feet
yeah
Woah this crazy haze is too much for me
Gonna take a shot, hold it up to the light and see
See for real
All that tea and sympathy
Wasted tears, I waited years for you for you for you

Gonna take it down
Gonna make it simple
Gonna look in your eyes
And let you in on the truth, because

I don't get this feelin' every day
Never gonna let you down
Do you wanna shake it down yeah
Now it's here I tell ya
I want it to stay
Never gonna let you down
Now that I found ya

Dreamin' days taking over me
Been a long time since the heat
Hit a hundred degrees yeah
Oh magic nights, too much to do
Gonna chase the morning
When it comes a calling for you for you for you
Gonna leave those broken hearts behind
Let my guard down low this time
Gonna take a risk, 'cause I never do

Gonna take it down
Gonna make it simple
Gonna look in your eyes
And let you in on the truth, because

I don't get this feelin' every day
Never gonna let you down
Do you wanna shake it down yeah
Now it's here I tell ya

I want it to stay
Never gonna let you down
Now that I found ya

And now I can't get enough
I wanna, feel, bleed, kneel for you
And I can't give it up
Coz everything you do to me, you spark me up
It doesn't happen everyday that you find
this kind of love
Find this kind of love
Find this kind of love
Find this kind of love

Because I don't get this feelin' every day
Never gonna let you down
Do you wanna shake it down (down)
Now it's here I tell ya
I want it to stay (I tell ya, I tell ya)

Because I don't get this feelin' every day (ooh)
Never gonna let you down
Do you wanna shake it down yeah

Can't get enough of this feeling
I can't get enough of, this kind of love
