written and composed by Mads Hauge/Pixie Lott/Phil Thornalley

It's nearly midnight
Now I'm just about to leave
You promised you would be here
One more promise I believed

Stroll in like a bad boy
With no apology
You think I'm good for you
But that's not good enough for me

Why should I keep loving you?
When all I do, boy, is hurt
Why should I keep loving you?
I know I don't deserve
Everything that you put me through
You're breaking my heart a little harder

I'm better of
I'm better of
I'm better of
Lonely

My friends all say I'm stupid
Staying close to you so long
I try to tell them
That this kind of love ain't wrong

It started so well
Where did all that good stuff go?
You said you'd take me higher
But I never felt so low

Why should I keep loving you?
When all I do, boy, is hurt
Why should I keep loving you?
I know I don't deserve
Everything that you put me through
You're breaking my heart a little harder

I'm better of
I'm better of
I'm better of
Lonely

Never wanna feel the way I felt
You made me feel bad about myself
Leave now, baby, take what's yours
Ain't gonna be a fool no more
Ain't gonna be the fool

Why should I keep loving you?
Why should I keep loving you?
I'm better of

Why should I keep loving you?
When all I do, boy, is hurt
Why should I keep loving you?
I know I don't deserve
Everything that you put me through
You're breaking my heart a little harder

I'm better of
I'm better of
I'm better of
(Lonely)

Everything that you put me through
(Lonely)
I don't deserve
(Lonely)
Ooh
(Lonely)

I'm better of
(Lonely)
Ooh
(Lonely)

I'm better of
I'm better of
I'm better of
Lonely
