written and composed by Hans Francken/Ingrid Mank

You must be a wizard
'Cause you put a spell on me
You must be a genius
'Cause you can tell just what I need

You're so wholesome
A potion I love drinking
Bottom's up for you, babe
Your devotion is like lotion
That soothes my skin
You touch me in the right way

Baby, we're a match, made in heaven

No, I won't dehydrate
While I'm drinking from your cup
And sometimes you're a bad habit
But you're so hard to give up

You're my Romeo, Romeo
All I want
Is to be your Juliette
I keep holding and holding you closer
'Cause I don't want to let go
Baby we're a match, made in heaven

You're all in one
You're comfort, you're joy
A shoulder to cry on
You've got a million ways
To make me love you 24/7
You're made in heaven

If you were a teardrop
And you're rollin' down my face
I'd catch you in a bottle, baby
And I'd cry you every day

Oh you're the key the definity

This must be
My predestination
I'll be giving you
All that you want from me
Without reservations, yeah

'Cause, baby, we're a match, made in heaven

Oh
You're all in one
You're comfort, you're joy
A shoulder to cry on
You've got a million ways
To make me love you 24/7
ooohooo

You're all in one
You're comfort, you're joy
A shoulder to cry on
You've got a million ways
To make me crazy for you

Made in heaven
Made in heaven
You're a potion, baby, I love drinking

Made in heaven
Made in heaven
Ooh

Made in heaven
Made in heaven
Don't you put a spell on me

Baby, we're made in heaven
