Ticking clocks
Never stop
And when I hear the sound
My body rocks, booty pops

I think I wanna strip that down
Bass out loud
You hear me clappin'
Hear my BVs rackin'

Don't you stray too far from me
Baby, I'm , baby I'm gonna need you right now
The music's now a part of we
Baby, I'm , baby I'm gonna need you right now

Put that record on
And watch me while I move
I'm doin' my thing
Put that record on
And keep it spinnin' round
We're rock 'n rollin'

Dangerous I get lost
But keep the volume comin'
Turn it up
Gotta trust ee-een that old skool lovin'

Tell me how you love me now
Spin the bottle
Lookin' for trouble
Here I'm holla-in'

Don't you stray too far from me
Baby, I'm, baby I'm gonna need you right now
The music's now a part of we
Baby, I'm, baby I'm gonna need you right now

Put that record on

And watch me while I move
I'm doin' my thing
Put that record on
And keep it spinnin' round
We're rock 'n rollin'

Ooh-ooh-ooh-ooh-ooh-ooh...

Break it down
Now bring it back
Break it down
Now bring it back

Don't you stray too far from me
Baby, I'm, baby I'm gonna need you right now
The music's now a part of we
Baby, I'm, baby I'm gonna need you right now

Put that record on
And watch me while I move
I'm doin' my thing
Put that record on
And keep it spinnin' round
We're rock 'n rollin'

Put that record on
And watch me while I move
I'm doin' my thing
Put that record on
And keep it spinnin' round
We're rock 'n rollin'

Put it on
Yeah , put it on
Put that record on
Yeah
