Yeah, listen!  
You must be the...  
You know everything that...  
Ladies need to fall in love!  
Thought that you were einstein, but you didn't...  
Something is... up!  
I'm on call with my girls  
You on call with that whore  
And I'm about to walk out that door!

Stand up, stand up,  
If you think you got it figured out!  
Stand up, stand up  
If you don't know that you're about to...  
Stand up, stand up,  
If you think you need to tell him now  
I thin that you should let him go!  
It's time to go, it's time to go  
I think that you should let him know!  
It's time to go, it's time to go  
I think that you should let him know!  
You should go, you should go  
I think that you should let him know!  
You should go, you should go  
I think that you should let him know!

I don't... but it doesn't mean you have  
Everything you ever ask for!  
And I don't know if you want me,  
All I want is tuna 3  
What a fuck is she here for?  
I'm on call with my girls  
You on call with that whore  
And I'm about to walk out that door!

Stand up, stand up,  
If you think you got it figured out!  
Stand up, stand up  
If you don't know that you're about to...  
Stand up, stand up,  
If you think you need to tell him now

I thin that you should let him go!  
It's time to go, it's time to go  
I think that you should let him know!  
It's time to go, it's time to go  
I think that you should let him know!  
You should go, you should go  
I think that you should let him know!  
You should go, you should go  
I think that you should let him know!

I'm not gonna cry, cry, cry like a bitch, like a bitch!  
I'm just gonna smile, smile, smile, and yell you this, tell  
you this  
Left foot, right foot, that's how you get the fuck out  
Get the fuck out!  
Left foot, right foot, that's how you get the fuck out  
Get the fuck out!

Stand up, stand up,  
If you think you got it figured out!  
Stand up, stand up  
If you don't know that you're about to...  
Stand up, stand up,  
If you think you need to tell him now  
I thin that you should let him go!  
It's time to go, it's time to go  
I think that you should let him know!  
It's time to go, it's time to go  
I think that you should let him know!  
You should go, you should go  
I think that you should let him know!  
You should go, you should go  
I think that you should let him know!
