written and composed by Kara DioGuardi/Greg Wells

Please  
Come a little closer to me  
But not so close that I can't breathe  
'Cause you're stepping on my little tippy toes

And I  
I got a funny feeling inside  
Like something's gonna happen tonight  
But it's not what you might think I had in mind

So back it up, baby  
Keep your hands at your side  
'Cause my mood can swing  
Faster than you realize

And we wanna have a good time

It's not the Fourth of July  
But I still got a high  
'Cause it's a beautiful day  
And that's a reason to play

Feel the wind in my hair  
See the love everywhere  
Tomorrow come what may  
Just treat me like a woman today

Treat me like a woman today

Ooh you  
You think you know me better than most  
Before you make a move here's how it goes  
Won't be taking any of the usual lines

To step up your games  
Introduce an element of surprise  
'Cause my mood can swing  
Faster than you realize

It's not the Fourth of July  
But I still got a high  
'Cause it's a beautiful day  
And that's the reason I wanna play

Feel the wind in my hair  
See the love everywhere  
Tomorrow come what may  
Just treat me like a woman today

Whoo  
Chub chub chub chub  
Chub chub chub chub

It's not the Fourth of July  
But I still got a high  
It's a beautiful day  
And that's the reason I wanna play

Feel the wind in my hair  
See the love everywhere  
Tomorrow come what may  
Just treat me like a woman today

It's not the Fourth of July  
But I still got a high  
'Cause it's a beautiful day  
And that's the reason I wanna play

Feel the wind in my hair  
See the love everywhere  
Tomorrow come what may  
Just treat me like a woman today

You better treat me like a woman  
Today  
Don't know what you're doing  
What you're doing to me boy

You better treat me right  
You better  
You better  
You better treat me right  
You better treat me like a woman
