There's something in the air
And there's something in your stare
And I'm feeling butterflies around me, baby
I just get weak
My head is saying no
But my body's letting go
And I'm givin in to my subliminal
And that's where this gets deep

And you've clouded my senses
But I don't know you yet

Don't say a word
You might just curse a good thing
What I'm thinking can't be heard
It's unspeakable
The way I want you

You're livin' in my mind
So don't feed me any lines
Wanna make my own reality
Don't want to know your game
'Cause anything you'd say
Would be getting in the way
Of a world full of possibility
Don't wake me from my dreams

And the danger is oh so clear
But I don't have a fear

Don't say a word
You might just curse a good thing
What I'm thinking can't be heard
It's unspeakable
The way I feel your vide

You're just so animal,
It's instinctual
It's unspeakable
The way I want you

Behind your eyes
I recognized something else
Right down my spine
Like nothing I've never felt
You might be my destiny, fantasy
Everthing I needed boy
You could be there for me

Don't say a word
You might just curse a good thing
What I'm thinking can't be heard
It's unspeakable
The way I feel your vide
You're just so animal,instinctual
It's unspeakable
The way I want you

I just get weak
You are my destiny
Yeah, It's unspeakable
