Visit "[I Love Red And White](#)" on MotoLyrics.com

I saw the other schools by the champion ships,
I knew they must've had a victory.
I knew I'll be the only one,
So I let them celebrate.

And I knew it wouldn't be long till our school would be
(would be)
The only school in Monterrey with victory (victory)

Singin'
I love red and white,
From Nursery house to 12th grade,
I love red and white,
So come and take your time and learn with me!
(Clap x2) OW!

If they think they'll win then they're insane.
They gotta know we really make a storm.

Cause we'll be number one,
Under the red sun.

And I knew it wouldn't be wrong till our school would
be (yeah we)
If you said we're number one you wouldn't be
wrong (victory)

Singin'
I love red and white,
From Nursery house to 12th grade,
I love red and white,
So come and take your time and learn with me!
I love red and white,
From Nursery house to 12th grade,
I love red and white,
So come and take your time and learn with me!
(Clap x2) OW! (clap x2) WHOO!
