I admit you hurt me bad
Gave you everything I had
Time moves fast, life goes on
I was lost, now I'm strong
Don't regret 'cause it's alright
Sometimes have to say goodbye
Now I see, now I know
That it's ok to let you go

(Chorus)

Somewhere there's a little piece of my heart
Just a little piece of happiness
It will always be with you, wherever you are
Just a little piece of happiness

Never thought I'd be here
In my eyes, no more tears
No wishing we could be
Just the way it used to be
I still care, I still do
Never be another you
Now I see, now I know
I can make it on my own

Chorus x2
