This is it, this is it  
You show me who your loyalty is sleeping with, didn't  
you?  
Let it die  
This time I'm gonna let it die  
I'm left here with the pieces of another try  
Nothing new

And I have never felt as humiliated as I do right now  
And I don't know how I'm gonna get out of this with my  
head held high  
But I'm gonna try

Chorus:  
So turn the lights on and leave  
Remember how I loved you when you ached and you  
need  
Remember how I offered to be there when you turned  
Remember when you burned  
What you had, what you had  
And all that ever starts gotta stop  
And all I know for certain is my heart's had enough  
And you was never worth it  
I'm taking it all back  
Settling my score  
Covering all traces  
Walking with you no more, no more

I don't need

No, seriously, I don't need  
For you to give your reasons up for leaving me  
Keep your lies  
And you can say you're wasting your breath  
But baby you can say  
That this is my decision  
But you chose your way  
And so will I

And I have never felt more ashamed of you than I do  
right now

(Repeat Chorus)

Walking with you no more

And I have never felt more ashamed of you than I do  
right now, no  
And I don't know how I'm gonna get out of this with my  
head held high  
But I'm gonna try

(Repeat Chorus)

Walking with you no more
