Take me away from this place i forgot,  
if you come then nothings keeping me here  
is no place that i want to be  
can't you see the things they put me through  
the smog i see you walkin from the world  
-ly treasures and pleasures that dont seem to be  
treating well so..

take me away from this place i forgot  
if you come then nothings keeping me here  
is your new life like 123, dont we all wish  
thats how life could be  
-fore you leave just one more hug  
and tomorrow we'll take our journey  
or so we say most every day  
cuz we can't pull ourselves away

take me away from this place i forgot  
if you come then nothings keeping me here  
is the park we used to play at not so long ago  
our lives and stories always grow no matter where we  
really go  
-ing nowhere is somebody elses somewhere too so  
how bout you  
and i we fight for glory the perfect ending to a story  
time is over take me away take me away and

take me away from this place i forgot  
if you come then nothings keeping us here  
is no place that we want to be  
can't they see the things they put us through
