Beautiful is in the sky, watch it slowly
All our time is flying by, too fast
Where we're heading isn't always clear, it can feel like
no end
But everything we need is here, right now

'Cause the sun is shining
And the world is alive

Every thing's alright, 'cause all we've ever needed
Is a perfect day to be alive
So no more waiting now for a wonderful life
'Cause it's a wonderful life right now, oh yeah

Beautiful is in the eyes of a friend or a stranger
Soul searching in disguise for love
We're always planning on escape to something higher
But there is a better way to live

'Cause the sun is shining
And the whole wide world is alive

Every thing's alright, 'cause all we've ever needed
Is a perfect day to be alive
So no more waiting now for a wonderful life
'Cause it's a wonderful life right now
Oh, oh, right now, yeah, yeah

And the sun is shining
And it's so good to be alive

Every thing's alright, 'cause all we've ever needed
Is a perfect day to be alive, yeah, yeah

Every thing's alright, 'cause all we've ever needed
Is a perfect day to be alive
So no more waiting now for a wonderful life
'Cause it's a wonderful life right now, oh yeah, hey
Right now, oh yeah, yeah
