When you beat on that drum
Talk in that tounge
You're just scratching on the surface
So tell me what in means
A whisper to a scream
Slowly fades away

CHORUS:

Then you wake up
And tomorrow is today, oooh
And you're crying, crying like a baby
Caught between the tides
(Did you lose your way)
You lost your way
(Did you lose your way)
You lost your way

Do you know where I've been
Walls are caving in
It moves across a wire
Theres no need to talk
I crawl as you walk
Pushing me away

CHORUS

Flowers in the bin
Close this hole I'm in
Everything was one
Nothing gets undone
You pay the bill
You've lost your will
Just run away until

CHORUS
