[Intro]

Uhh... how could she?  
Why would she?  
\*sighs\*

[Chorus]

Baby I Love You,  
Why did you let me go?  
Yes it hurts me  
But I still want you to know  
All the love we made  
Can never be erased  
And I promise you that you will never be replaced

Baby I Love You,  
Why did you let me go?  
Yes it hurts me  
But I still want you to know  
All the love we made  
Can never be erased  
And I promise you that you will never be replaced

[Verse]

Damn, this girl she really got me thinking  
Making her the more reason the future we'd be living.  
Together, and I know it wouldn't be forever  
Cause good things don't last long  
But we could've made it further.  
All the things you told me,  
All were lies I know,  
Cuz if you felt how you said you felt  
You just couldn't let me go.  
Without a single reason  
Not even a single fight  
You gave the best of my life,  
But with the lonliest nights.  
I got it bad,  
No I got it even worst then even Usher.  
Cuz even though you did you I can't let go  
No, I know it's not supposed to come back  
I know that you won

I know that you left and never coming back.  
Except the fact that your gone

[Chorus]

Baby I Love You,  
Why did you let me go?  
Yes it hurts me  
But I still want you to know  
All the love we made  
Can never be erased  
And I promise you that you will never be replaced

Baby I Love You,  
Why did you let me go?  
Yes it hurts me  
But I still want you to know  
All the love we made  
Can never be erased  
And I promise you that you will never be replaced

Baby I Love You,  
Why did you let me go?  
Yes it hurts me  
But I still want you to know  
All the love we made  
Can never be erased  
And I promise you that you will never be replaced

Baby I Love You,  
Why did you let me go?  
Yes it hurts me  
But I still want you to know  
All the love we made  
Can never be erased  
And I promise you that you will never be replaced

It's over...
