I was walking through hills and valleys
On a journey to you, so far away
I encountered my dreams
I followed the paths I never knew, for you

(chorus)

Now I just wanna be with you
No space apart
Just hold me in your arms
Take me there
And I'll stay
Forever and a day
I just wanna be with you
No space apart
Just hold me in your arms

Lifetimes only wish of love like ours
So rich of wonder
It's complete with you, it's true
And shadows can follow
But they won't win, no they won't
Because love is real
I'm sure there's nothing I want more

(chorus)

(bridge)

I never believed that love could be like this
So pure, so true

(chorus)

(repeat verse 1)
