Wherever you go, I go  
And wherever I go, you go  
Whatever you say, I say  
That's the way we like it

Whatever you do, I do  
And whatever I do you do  
Whenever we come, they come  
That's the way we like it

I look around me and all that I can see, AAH...  
Is pretty faces, they're looking vacantly AAH  
With no opinions, not really much to say AAH  
Just bland old small talk, but we like it that way AAH

Chorus

So welcome to the high society AAH  
We're all the same, who needs originality AAH  
We make the papers, don't care about our cred AAH  
Just fame and fortune and with whom we share our bed  
AAH

Chorus

They here, they're there  
They're everywhere you see  
The news, every reality TV show  
And they're spreading like a bad disease  
So please won't someone come and rescue me (x 2)
