Natas!

Cocoa eyes upon me they stare  
In them 2 tone gators, I'm rockin a pare  
Collect collect  
The telly ring is my connect  
Our money ain't good get some self respect  
Those times is hard  
I'm still spinin by the yard  
Spend all of my time treatin a nigga with a bar  
TOO REEL, find an honest way to make mill  
Sat in church on sunday the preacher gave me the  
chills  
So blast for me is what my shot gun said to me  
The blood stains on my shirt are red to see  
(TNT)

Havin hard times, in this crazy town  
Havin hard times, there's no love to be found  
Havin hard times, in this crazy town  
Havin hard times, there's no love to be found

Havin hard times, there's no love to be found  
Makin bad decisions get you 6 feet underground  
I'm scitsofranic, I'm talkin to myself I panic  
Premeditated, murdered man I had to plan it  
Hard to do the shit I do and get away with it  
Hit you up quick and make it look like they did it  
I ain't tryin to kill another brother  
But sometimes niggas be losin they mothers  
Fuckin mad out here, goin off that water  
Makin the situation harder  
Actin like they slow in the head  
So I had to put him to bed  
(TNT)

Havin hard times, in this crazy town  
Havin hard times, there's no love to be found  
Havin hard times, in this crazy town  
Havin hard times, there's no love to be found

More bad that good days

Livin in my hood days  
Go by slow to people ridin on doe  
The fact is, 80 percent of the city is poor  
Limbo low the poverty mind  
Goin out of there mind  
Wonder why cocaine, weed, and alcohol keep sellin  
It turns breakin down mentality felon  
The story that I'm tellins got me all alone yellin  
Thinkin to myslef might as well go to heaven  
(TNT)

Havin hard times, in this crazy town  
Havin hard times, there's no love to be found  
Havin hard times, in this crazy town  
Havin hard times, there's no love to be found...  
So many  
So many  
So many  
So many

Man! can you believe this bitch ass nigga tryin to

mutha fuckin turtle soup and damn threw up off that
