"Cycle"

Visit "[Cycle](#)" on MotoLyrics.com

We must learn to wait
to solve knotty not to tie
Once you become a catch air
A good night in daylight
must learn to give time
I stay outside, to see just
I know what it is like to remember
want to become what I fear

Thasai always circle is not closed
the game that nobody won
And as you ask me to stop
I look for ways narchisoume
nothing about the two of us did not change
thasai always one ...

We must learn to wait
only shorten the distance
Distance of words will regret
just hurts so bye

Thasai always circle is not closed
the game that nobody won
And as you ask me to stop
I look for ways narchisoume
nothing about the two of us did not change
thasai always one ... not closed
