Whenever I am next to you
Is a .. with angel
So I better be aware
Everything you do
I am so attracted to you
I cannot block you
More and more and more

[Chorus:]

Everybody got the same moves
Like a golden old photo shot
But baby when I look at you
There is one thing that you're not
Baby you are messed up
That's ok I am to
So baby don't change a thing
Cause I wouldn't be with anyone else but you
Imperfections make me weak
A man who's not afraid to weep
Only shows me that you are deep in love with me to ...

Imperfections is who you are all your bruises and your
scars
You got all the character enough for us to loving

Don't wanna be with anyone else
Don't wanna get with anyone new
Don't wanna be with anyone else
It won't be love if it's not with you
(repeats)

You made me change my mind
Things that I didn't like
And now that's my favorite thing
I would never expect
That I have no regret
You're different cause you are ages

[Chorus:]
