

## Natasha Bedingfield "What Ifs"

Visit "[What Ifs](#)" on [MotoLyrics.com](#)

All the could bes buzzin' 'round  
My mind a thousand tiny clouds  
And now I cannot see the sun  
All the worries on my list  
Rush like lemmings off a cliff  
I'm powerless to save even one

All my friends tell me I'm thinkin' too much  
It's not over 'til it's over  
Because today is trouble enough  
Leave tomorrow 'til tomorrow

I'm not jinxing what could be  
Second guessin' what I see  
There is you and there is me  
And no what if's

Not crossin' fingers, knockin' wood  
'Cos worryin' about it could  
Spoil the moment when it's good  
No more what ifs, could bes, one days, if onlys

The intro's looping on and on  
Don't really get to feel this song  
When it's only playing in my head  
If I don't listen with my heart  
Trust my instincts from the start  
Then I'm as dumb as dumb can get, so

I'm not jinxing what could be  
Second guessin' what I see  
There is you and there is me  
And no what ifs

Not crossin' fingers, knockin' wood  
'Cos worryin' about it could  
Spoil the moment when it's good  
No more what ifs, could bes, one days, if onlys

Looked in my eyes, made my heart skip  
Knew I wouldn't take no from there  
Only right that we would start this

I'm not really sure what we would call it  
But let's not give it names, wouldn't care  
You're mine regardless, I'm all in

Baby in the crib, look at how we livin'  
Happily forever after, that's just what it is  
And I know I shouldn't do that, I'm only causin' stress  
I know I should just let it flow, I know that's for the best

And trust, I'm tryin', y'all tryn'a stop my brain  
From makin' up a future that could cause me pain  
So, I'm a get my head out the fantasy  
All we got is now an' it's good, I ain't gonna let it bother  
me

I'm thinking too much  
It's not over 'til it's over  
Because today is trouble enough  
Leave, leave tomorrow 'til tomorrow, 'til tomorrow

I'm not jinxing what could be  
Second guessin' what I see  
There is you and there is me  
And no what ifs

Not crossin' fingers, knockin' wood  
'Cos worryin' about it could  
Spoil the moment when it's good  
No more what ifs, could bes, one days, if onllys

No more what ifs, could bes, one days  
No more what ifs, could bes, if onllys  
No more what ifs, could bes, one day's, if onllys

What if I've lost you with all these what ifs  
What if, what if, what if, what if  
What if, what if, what if, what if  
Oh no, what else should I say
