When I see you
I see you naked
When you're near me the tension's hard to bear
Infatuated, no doubt about it
Think there might be somethin' in the air
So we got this situation
Let's fall into temptation
Are you with it do you wanna hit it
Baby if you wanna play it then let me hear you say it
Don't repeat it
We gotta keep it secret

If you wanna taste
Don't talk about it
Keep it on the low
Just hush your mouth don't scream and shout it
Get into the flow
Nobody has to know
No no no no

I wanna touch you it's so frustrating
Wanna hold you and never let you go
When our eyes meet I'm intoxicated
I can feel my body overflow

Baby baby
Is there somethin' there for me
Baby won't you come and rescue me
This is somethin' only we should share
