My car broke down on our first date;
We missed the movie an' we never ate;
It was freezin' cold an' the heater broke.
I apologized: you kissed me goodnight,
An said: "It couldn't have been any better."
Girl, if you like that, you're gonna love forever.

If you like that ring you saw in the window,
In the jewellery store down town.
If you like tuxedos an' white satin dresses,
Maybe you better sit down.
If you like driftin' off to soft pillow talk,
An wakin' up together,
Girl, if you like that, you're gonna love forever.

If you like livin' on a rural route,
Fixin' up an' old farmhouse.
Hugs with your coffee and your good mornin's with a
kiss
If you like startin' a fire on a cold winter's night,
An' makin' dreams come true together:
Girl, if you like that, you're gonna love forever.

If you like that movie we saw last September:
The one you cried half way through.
If you liked that scene where he got down on one knee,
Girl, have I got somethin' for you.
If you like love like wine that grows sweeter with time,
An' keeps gettin' better an' better,
Girl, if you like that, you're gonna love forever.

If you like love like wine that grows sweeter with time,
An' keeps gettin' better an' better,
Girl, if you like that, you're gonna love forever.
Girl, if you like that, you're gonna love forever.
