[Chorus - Lil' Mo and Nate Dogg w/ variations]

[Both] A gangsta's for every day

[Mo] So make sure that you keep it, G-A-N-G-S-T-A

[Both] And now that I know the game

[Mo] I'll make sure that I keep it, G-A-N-G-S-T-A

[Nate Dogg]

Me and the ghetto where the poor people hang

Please pay attention they do ghettoish thangs

One out of three, yep a third of 'em bang

The other motherfuckers they be slanging that cane

Always out for money 'cause the money's the game

Eastside homey it's a Long Beach thang

You heard me right nigga this is DPG

With the superwoman standin' claimin' CPT

[Lil' Mo]

I-I, promise I'ma keep it G

Rep my south team, hands in the street

Recognise game, and they recognise me

'Cause a G like me comes naturally

Tho-ose, haters try to hate on me

But they got no choice but to do right by me

There's no way o' dividin' me

'Cause my OG's in the streets gon' ride for me

I-I, promise to do ghetto things

'Cause I'm the closest thing to ghetto in this industry

That's why I be chillin' when it's 90 degrees

While ya keep shit poppin' how I ride this beat

And people always saying to me

How can I tell I'm really a G?

'Cause an OG told a gangsta

A gangsta told a playa

A playa told Nate

And Nate just said to me

[Chorus]

[Xzibit]

Nate Dogg reppin'

(Look!) X to the Z

I'm shifty, versus runnin' a buck 50  
Tryin' to get large enough bank to get Britney  
I'ma do Britney like Bobby did Whitney  
Fuck her whole life off, donate my kidney (Yeah!)  
Wake up to vodka, crash with the whiskey  
My name holdin' to much weight, you can't lift me  
Came from my first out ghetto with King Topsy  
Hold a torch over my city, you can't miss me  
Niggas say fuck me but can't fuck wit' me  
Twist this shit, make your finger tips sticky  
I need me a wify, shit I mean wifey  
I'm so fucked up I couldn't read my own writin' (Heh)  
Clash of the titan, (Yeah!) no propaganda  
Big (?) hummin' for you Tony Montana  
T-shirt, khakis, tucked in bandanas  
Livin' amongst the most scandalous on the planet (Yo!)  
[Chorus x2]
