We'll like to welcome y'all back to the club
I'm your host this evening, Mr. Tadah, ya dig
Club Toe Jam is once again off the hook
For ladies night, ya dig, everynight
Right now, we would like to bring something very
special for you
Check it out

I like them girls with the tight brown skin, dark and fine
That's the kind of girl I wanna play with tonight
I wanna do some nasty thangs,
Wanna make her scream my name

I like the girls that don't say, "What?"
Know that she fine, always knows her line
Because she knows she's a dime
Put her on platinum chains, got her own cash and
things

I like them girls, their sassy ways, sassy ways
Oh, I like them girls, like them girls
Man, I could stay there for days

Why you so cute? Why you so big?
Why you bullshitin'? Come and deal with a pimp
Put your bags in the trunk, holla at your boy
You can spend the night, we at the Elroy

Doing things that we shouldn't, couldn't
Girl, you got that good chocolate pudding
The best in hood, what's goodin'
She got the wizard of west wood, like old John Wooding

But how could I need that
I'm looking for feedback, 'cause I can't believe that
I fell into a little tree sap
I got a woman at home, ain't fell in love where the
weeds at

Started off with a dime but by the time I was thug
She was less than a deuce, I'm telling the truth

Confessing with you, I'm just messing with you
Because on the real, baby girl, you put in the S in Snoop

You see I rock, baby, nonstop, baby
Warren G, baby, shake that thang, lady
I see you picky, lady, you be tweaking, lady
Pulling that '38 snub out your stock end, baby

You put the G in the dub, we hot fuckin' in the tub
I ain't trippin' off baby, so why you trippin' off 'cuz
I'm trying to get my money right
So you could kick it with, baby, but get your mind right

What the fuck is up, you messing with a G
Warren to the L to the B and the C
Regulate get cocked and be original
The game don't wait for female individuals

So what you saying, you trippin' off my home
We ride like that, you know what I'm sayin'
Hey, baby, how d'ya take the grab
