It's the end of the road  
I'll miss you next year  
We've been through so many  
Smiles and tears  
And who's to say  
That we'll lose touch  
We just gotta stay close  
Before we separate too much

This is graduation  
It is a celebration  
But everywhere I look  
I'm seeing tears line the cheeks of all my loved one's.  
This is a combination  
Of every kind of sensation  
That can all be summed up in one word:  
"Congratulations."

These last 4 years have gone by so fast  
I closed my eyes one day and here I am.  
All the hard work has finally paid off  
And now on the stage is where we'll make our final  
stand

This is graduation  
It is a celebration  
But everywhere I look  
I'm seeing tears line the cheeks of all my loved one's.  
This is a combination  
Of every kind of sensation  
That can all be summed up in two words:  
"We're done."

I'm gonna miss walking these halls  
Miss staring at the walls  
But I know another 4 years is to come somewhere else.

But nothing could replace this  
And these are memories that will exist  
Far past college and beyond

These classrooms and the faces  
Do more than fill up spaces  
They were all engraved in my heart and will forever  
remain

And the lessons that I've learned here  
I can promise you I will hold dear  
They've taught me more about life than I could ever  
explain

Thank you to everyone who has helped me get here  
I can't tell you how much it means to me  
I've watched you all continue to grow up for so long  
And you've all grown into people who are so strong.

And to those friends who are going away,  
I'm gonna miss you terribly  
But I know you're gonna be okay wherever you are.

And for those who are worried about me  
I've got it figured out and I'm happy  
And I can't wait to see what else is now to come

This is graduation  
It is a celebration  
But everywhere I look  
I'm seeing tears line the cheeks of all my loved one's.  
This is a combination  
Of every kind of sensation  
That can all be summed up in three words:  
"We've just begun."
