Verse 1:

I've got a black cat walking across my path
And a big red monkey that's on my back
And every time I try to run I fall off the track
Seems that since we've parted ways everything's gone
wack
And now my head is swimming with tale-tell signs
That my world is going under can you throw me a line
With my eyes wide open I still feel blind
When I said I didn't need You I was telling a lie
And now, I know, that I need You in my life

Chorus:

And I feel like I'm going out of my mind
And I feel like I'm always running out of time
And I feel like without You my life is going nowhere
And I feel like I can't live one day, one night, all my life

Bridge:

Without You, without You, without You, without You

Verse 2:

Now I really am trying to get through that
Cause the truth in missing You is what makes me sad
And every time I try to think of the time we had,
I see the way I treated You and it makes me mad
Now my life's like a movie that's in rewind
And I need to get away, leave it all behind
With the love You gave it saved my life
You offered me eternity and You paid the price

Chorus:

And I feel like I'm going out of my mind
And I feel like I'm always running out of time
And I feel like without You my life is going nowhere
And I feel like I can't live one day, one night, all my life

Bridge:

Without You, without You, without You, without You

Bridge:

And I feel like I'm going out of my mind
And I feel like I'm always running out of time
And I feel like without You my life is going nowhere
And I feel like I can't live one day, one night, all my life

Bridge:

Without You, without You, without You, without You,

Without You, without You, without You, without You,
Without You, without You, without You, without You,
One day, one night, one day, one night, all my life,
Without You
