So what you lookin' for  
You've got your eyes on me  
Guess what I'm thinkin' of  
I'm thinking about them things  
So wanted you to know  
So what are you gonna do  
When I get you in the zone  
Don't get gone, bring it on

Could you please just turn the music up  
I'm ready for the beat to drop  
Let me feel the rhythm take me to the dance floor  
You ain't got no time to hesitate  
And my feet start moving to the beat  
Give me what you got before it's too late

Chorus

Cause baby I can't stop when I hear the music  
The beat is on and I can't diffuse it  
I'm bout to blow and I can't control it  
I want us a chance  
I just wanna dance (can't stop now)  
I just wanna dance (can't stop now)  
I just wanna dance (can't stop now)  
I just wanna dance (can't stop now)

I ain't got no time to waste  
You better make up your mind  
And don't procrastinate  
Are you gonna be down tonight  
Cause boy it's gettin' late  
So what are you gonna do  
Wanna take it left to right  
Front to back, all night

Could you please just turn the music up  
I'm ready for the beat to drop  
Let me feel the rhythm take me to the dance floor  
You ain't got no time to hesitate  
And my feet start moving to the beat  
Give me what you got before it's too late

Chorus

Cause baby I can't stop when I hear the music  
The beat is on and I can't diffuse it  
I'm bout to blow and I can't control it  
I want us a chance anekatips  
I just wanna dance (can't stop now)  
I just wanna dance (can't stop now)  
I just wanna dance (can't stop now)  
I just wanna dance (can't stop now)

Oh, oh, oh, oh...

(I just wanna dance... oh)  
Dance to the music, music  
The music, music, music

DJ, put it back on!

Chorus

Cause baby I can't stop when I hear the music  
The beat is on and I can't diffuse it  
I'm bout to blow and I can't control it  
I want us a chance
