Boys and cars, boys and cars,
Boys and cars, boys and cars

I'm moving over my from Katie's place
She's got a shiny new car in her driveway
I guess we're gonna take her for a ride
We'll be driving around
See what's happening in town

Lady Corvet 65 is her name
Katie and I, we might take her to the highway
But she's never in the mood for cars and boys
We'll go searching for you
And the guys and the crew

And we are driving
Oh, can't things stay this way
And we will dance, into the dark
And darling I (oohoo)
I'm so in love with you

Next thing I know, I've got three kids and a dog
Now I'm just waiting for my man to return home
Blubarry panecakes, and some DVD's to watch
kiss my babyes goodnight, as I turn off the light

Sometimes I feel I've given up to much
I think of Katie and people I miss a lot
I'm in the mood for cars and boys tonight
Gotta feel it inside
So I take a true ride

And I am driving
Oh, can't things stay this way
And we will dance, into the dark
And darling I (wohoohoho)
I'm so in love with you
And we will dance, into the dark (boys and cars)
(boys and cars)
Dance into the dark(boys and cars)
(boys and cars)

(boys and cars)
(boys and cars)
(boys and cars)
(boys and cars)

I close my eyes and I get close to you
Crank up the music as I take her to the highway
The spirit of the wind reminds me of you
I feel free and alive
And for some reason

Coz I am driving
Oh, can't things stay this way
And we will dance, into the dark
And darling I (wohoohoho)
I'm so in love with you

And I am driving
Oh, can't things stay this way
And we will dance, into the dark
And darling I (wohoohoho)
I'm so in love with you

And I am driving
Oh, can't things stay this way
And we will dance, into the dark
And darling I (wohoohoho)
I'm so in love with you
