Jack and Jill

Yeah, they said they're together and thy'd be forever

And what a thrill when the future was held in their
hands

Then one day They fell down hill together and lost their
forever

Could have saved what they had if they found there
was so much more....

More to love then they knew

More to share then feelings

Take my hand ,walk with me

And we'll find there's more to love

You and me...

Yeah, it's gonna get hard, but we'll make it much
further then

Jack and Jill

Cause we've found something better, we know there's
more...

More to love then they knew

More to share then feelings

Take my hand ,walk with me

And we'll find there's more to love

But beautiful story's are not written by themselves

They're penned out of sorrow and pain.

More to love then they knew

More to share then feelings

Take my hand ,walk with me

And we'll find there's more to love
