"No Tomorrow"

Seems every generation
Says the world's about to end
Many people feelin' helpless
Can they find a way to win

Yesterday fades away
Gotta ride out the weather
Gonna be something better
For everyday theres ever been
There's never been no tomorrow

All the fear on all the faces
Down on Wall Street, down on main
People wonder if they'll ever

Yesterday fades away
Gotta ride out the weather
Gonna be something better
For everyday theres ever been
There's never been no tomorrow

Tomorrow's there, tomorrow's there

Yesterday fades away
Gotta ride out the weather
Gonna be something better
For everyday theres ever been
There's never been no tomorrow

Tomorrow's there, tomorrow's there
Tomorrow's there, tomorrow's there
