I bit my tongue way too long for you  
Second guessing got so easy to do  
I got so fed up, you know I knew  
I think we've got something here

So hear me now, hear me now  
I'm falling for you  
Hear me now, hear me now  
Am I getting through?  
Figure it out, figure out  
It's all up to you  
Hear me now, hear me now  
What do you wanna do?

Driving cars so far away from you  
Pushing my foot forward got harder to do  
Packing my bags finally thinking it through  
I know I wanna keep you here

So hear me now, hear me now  
I'm falling for you  
Hear me now, hear me now  
Am I getting through?  
Figure it out, figure out  
It's all up to you  
Hear me now  
What do you wanna do?

So hear me now, hear me now  
I'm falling for you  
Hear me now, hear me now  
Am I getting through?  
Figure it out, figure out  
It's all up to you  
Hear me now  
What do you wanna do?  
What do you wanna do?

Here's my words with my feelings, she's strapped  
around  
I'll see you off, but, please come back to town

I'll be waiting, thinking of what we'll be

Oh, hear me now, waiting  
Hear me now  
Hear me now  
Gotta hear me now

So hear me now, hear me now  
I'm falling for you  
Hear me now, hear me now  
Am I getting through?  
Figure it out, figure out  
It's all up to you  
Hear me now, hear me now  
What do you wanna do?

So hear me now, hear me now  
I'm falling for you  
Hear me now, hear me now  
Am I getting through?  
Figure it out, figure out  
It's all up to you  
Hear me now, hear me now  
What do you wanna do?

So hear me now, hear me now  
I'm falling for you  
Hear me now, hear me now  
Am I getting through?  
Figure it out, figure out  
It's all up to you  
Hear me now, hear me now  
What do you wanna do?
