You think you're cool
You're in a band
Couldn't get a girl
Now you're in demand

Did you put them down?
Did you leave them out?
Now when we play
You scream & shout Why did you leave your boy-friend
out?
Could he write a song like this?
I'm the one you're gonna miss

The love I saw, you could see
I always knew we'd allways be
Could you love me now?
I can love you now....

Ellen i could love you now.. Ellen could you love me
now? If so i knows it's true..and I'll allways be with you...
So can you love me....love me.....love me now I can
love you now.....love you now..... I love you.....
