The touch of rubber and clatter of chains, electric
pulses from the brain, the ardour flowing
Through the nerves, a passage to eleventh heaven,
pulses travel through chaotic seas
Painting the eyes with different scenes, visions
bouncing back and forth like laser beams...

The Sadovenus, open her veils, the veils to the art of
pain...

Riding, diving, up and down the waves of pleasure and
pain
Climbing, sliding, the black silver rainbow from skin to
brain
The beauty of pain, the angel in chains, underlying
monsters will exacerbate
The beauty of pain, the angel in chains, dark side of
Venus burns like a flame

Deep in the dark abyss in the fountain of Sodom roars
thye jailed beast under a thin exogenous web
Out of the dungeon the night side calls, the beast
crawls and the art unfolds
The man of moral and righteousness hides face in
shame
