He said that it was love at first sight
You knew he wasn't right
Must be your method to his madness
She said that he should be for real
He said he could not deal
And now she's full of sadness
She already know more than she knows
She knows that he may never come back
That will stop her from dreaming and scheming
Always old enough for mating
You said that hearts don't think they feel
It's just a minor complication
Hearts don't think they feel
It's just a careful observation
She said she knew him well
But wasn't kiss and tell
He said she's just a good friend
Someone had told a lie
In that they can't deny
Who figured that it would end?
Nobody knows what's really on your mind

But I can really tell that

(I can really tell that)

The look in your eye is saying goodbye

You may never look back

Hearts don't think they feel

It's just a minor complication

Hearts don't think they feel

That's my careful observation

There's no moral to the story

Somebody took your code away

So don't let your tomorrows be sorrows

Live life today

She already know more than she knows

She knows that he may never come back

(Come back now)

That don't stop her from dreaming and scheming

Always holding on to mating

Say it again...

Hearts don't think they feel

It's just a minor complication

I said that hearts don't think they feel

It's just my careful observation

From a different situation

I said...

(BACKGROUND VOCAL LINE)

Hearts don't think they feel

Minor complication

Hearts don't think they feel

Hearts don't think they feel

It's just a min... minor... minor complication

Hearts don't think they feel

It's just my careful observation

They don't think they feel
