Now just the other day I know you heard me say I'll do
better on my own, so I'll just go my way
and that's alright with me, I'll be fine you see, not even
occasionally, I'll think of you and me

I guess you knew I was wrong
Your love for me is so strong
That's why

Chorus

I will never never ever love without you breath without
you
Can't imagine life without you glad that you will always
call me friend

Please please accept my apologies, but you already
know that I have acted foolishly
Don't know why you stay you probably should leave, but
I appreciate the love that you are showing me

Chorus

There will never be another you for me
Don't want to search all my life for me its clear to see
That I love you and you love me and I will never never
ever leave

Chorus

I will never love without you
I can't even breath without you
Can't imagine life without you
