Stick 'em up, baby, reach for the sky  
Here's somethin' new you might like to try  
I know a place that's far from here  
Where the squares, they won't come near

How far?  
Hey, how far?  
Ooh, how far, baby?  
How far can too far go?

You'll be the queen of the tractor pull  
In your training gear will break all the rules  
I like it tough and I don't talk my kicks  
If I had me a hammer I'd show you some tricks

Oh, how far?  
Yeah, how far?  
Oh, how far, baby?  
How far can too far go?

Giddy up baby, ooh la la  
Giddy up baby, sha la la la la la

I know a place that's far from here  
Where the squares, they won't come near  
A smell of honey, the swallow of brine  
Let's whoop it up and have a real bad time

Oh, how far?  
How far?  
Oh, how far, baby?  
How far can too far go?

Oh, how far, baby?  
How far can too far go?  
I said, how far?  
How far can too far go?
